Vibration Analysis

Category 1 Course

Vibration Analysis Category 1

This is a four-day course that concentrates on the theory behind vibrations, their characteristics and how these characteristics are used to analyse problems in equipment. The course will begin with covering the theory and characteristics of vibration. It will then move on to cover the types of instruments and transducers that are available and will continue with basic equipment knowledge. It will then outline a systematic approach to vibration analysis and how to analyse vibration spectra for some common machinery problems. Finally, it will cover some basics of acceptance testing along with an awareness of access and safety issues. There will be continuous assessment through the course with an optional certification exam leading to ISO 18436 certification through BINDT PCN scheme. The cost of the exam is initially included in the fee.

This course is intended for those with around six month's experience of data collection and who wish to expand their analytical and problem solving skills. Although there are no formal pre-requisites to this course, experience of data collection is advised. The course material is generic and applies to all vendors' equipment. As there may be calculations involved, a scientific calculator may be useful. The detailed agenda is as follows:

Introduction to course

Maintenance Theories and Strategies

- Breakdown, Preventive, Predictive & Proactive Strategies

What is Vibration?

- Vibration amplitude response, spring mass & simple time waveform concept

Vibration Characteristics

- Frequency - Frequency from the time waveform; Time domain to frequency domain- Complex vibrations; FFT Process
- Amplitude -The three parameters of Displacement, Velocity & Acceleration
 - General useful frequency ranges;
 - Relationship between the three parameters

Peak Peak-Peak & RMS explained

Understanding the Vibration Spectrum

- Importance of resolution & accuracy; Effects on data collection time; Effects of overlapping

Overall vibration and its limitations

Overview of Vibration Instrumentation

- Overall level meters; FFT Analysers; Real Time Analysers

Overview of Vibration Transducers

- Accelerometers; Velocity Transducers; Eddy Current Probes; Shaft Contact Probes

Systematic approach to Vibration Analysis

Diagnosing operating condition through vibration signature analysis

- Unbalance
- Misalignment
- Mechanical Looseness
- Belt Drives
- Eccentricity

Acceptance testing – access and safety

Certification Exam

- ISO 18346-2 Category 1
- Certified by British Institute of NDT

TRAVEL BY RAIL

The rail stations serving Monks Ferry have excellent services with lines running to West Kirby, New Brighton, Ellesmere Port, Chester and Liverpool. All three stations are within a 15 minute walk. Hamilton Square station, reached by a mainly off-road route across the southern edge of Hamilton Square, is just 8 minutes away. Why not make your journey multi-modal using your cycle and the train? Merseyrail is considered to be one of the most cycle friendly operators in the country

| DESTINATION | PEAK TIME FREQUENCY |
|--------------|---------------------|
| New Brighton | Every 15 minutes |
| Chester | Every 30 minutes |
| West Kirby | Every 15 minutes |
| Liverpool | Every 10 minutes |

TRAVEL BY BUS

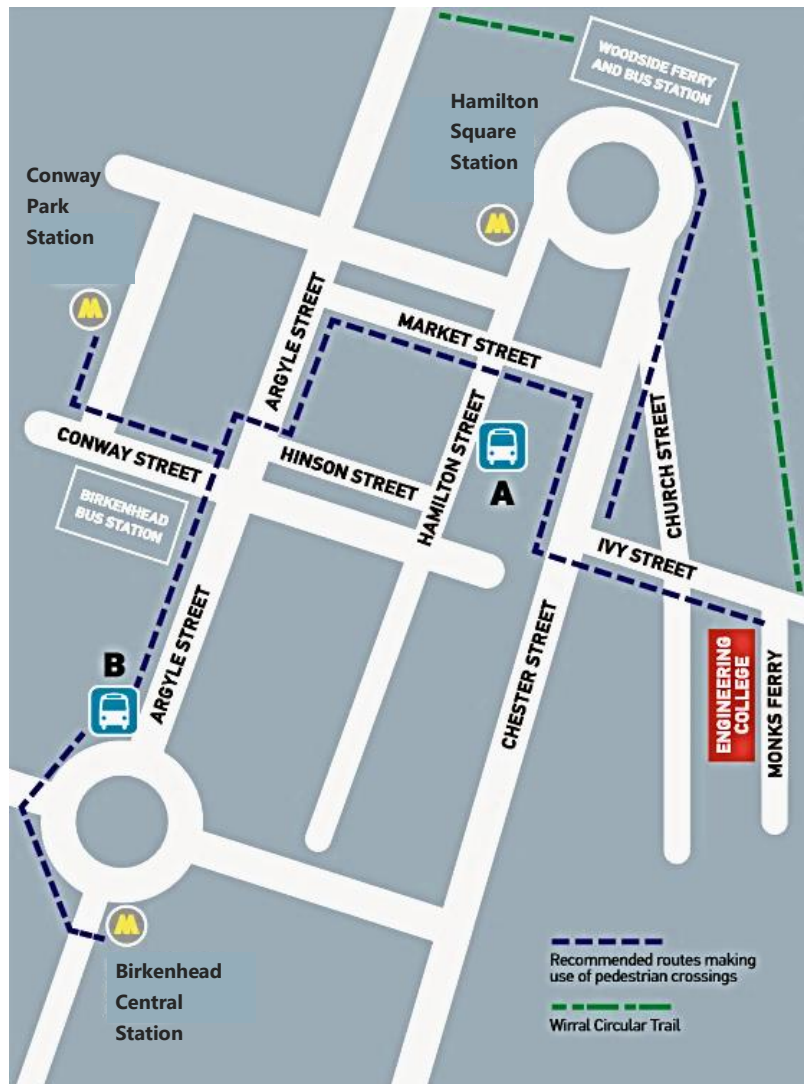

| SERVICE | ROUTE | BUS STOPS | FREQUENCY |
|----------|--|-----------|--------------------------------|
| 1,2 | Liverpool - Chester Chester - Liverpool | A B | Every 10 mins Every 10 mins |
| 407 | Liverpool - Moreton Moreton - Liverpool | A B | Every 20 mins Every 20 mins |
| 437 | Liverpool - West Kirby West Kirby - Liverpool | A B | Every 10 mins Every 10 mins |
| 464 | Liverpool - New Ferry New Ferry - Liverpool | A B | Every 30 mins Every 30 mins |
| 471, 472 | Liverpool - Heswall Heswall - Liverpool | A B | Every 20 mins Every 20 mins |
| 487 | Liverpool - Neston Neston - Liverpool | A B | Every 30 mins Every 30 mins |

NB. These routes drop off at either stop B or Birkenhead Bus Station on their way to Liverpool. There are a further 20 services covering most of Wirral available from Woodside Bus Station, which is an 8 minute walk away and Birkenhead's main Bus Station on Conway Street is only 12 minutes away.

TRAVEL BY CAR

From North / Liverpool: Travel west through the Birkenhead tunnel (toll charge on exit), looping sharply back to the left immediately upon exiting the tunnel (do not exit via toll booths straight ahead). Proceed through exit signposted Hamilton Square, the follow directions as for 3 and 4 below.

From South: From M53, exit junction 5 and follow A41, signposted Cammell Laird, for 4/5 miles. Pass Cammell Laird Shipyard on the right and McDonalds on the left, as you approach Birkenhead Tunnel. Move into middle lane as you pass McDonalds. Turn right at the traffic lights, crossing oncoming traffic and into Ivy Street. Head towards the river about 200 metres Cross Church Road and proceed down the hill. Follow the road around to the right into Monks Ferry Business Park. The Engineering College is located in the long white building on the right hand side. Free Car parking is available in the main visitors' car park immediately adjacent.

TRAVEL BY FOOT

| LOCATION | WALKING TIME/ DISTANCE |
|----------------------------|------------------------|
| Hamilton Square Woodside | 8 minutes/0.4 miles |
| Conway Park Station | 14 minutes/0.7 miles |
| Birkenhead Bus Station | 12 minutes/0.6 miles |
| Birkenhead Central Station | 14 minutes/0.7 miles |

COURSE APPLICATION FORM

Please complete the form in BLOCK CAPITALS

1. Surname or Family Name:

2. First Name or Given Name(s):

3. Title (Ms, Mrs, Mr etc.):

4. Address for correspondence:

5. Telephone Number (Day-time):

Contact Number In Case of Emergency:

6. Email:

7. Date Of Birth:

8. Training Course for which you are applying:

9. Do you have any food allergies?:

10. It would be very helpful to us if you could indicate how you heard about the course/module for which you are applying:

Newspaper or Magazine
(If so, which one?)

Course brochure emailed to me

Course brochure given to be my an acquaintance

Recommended by a friend

Website

Other
(please specify:)

11. Please sign and date:

| | |
|---------|-------|
| Signed: | Date: |
|---------|-------|

When completed, this form should be returned to:

Office Manager
PSW Integrity Ltd
1a Hamilton Street
Birkenhead
Wirral
CH41 6DJ

Notes:

- Any applicants with any disability or medical condition may wish to draw this to the attention of the Office Manager or Trainer. Such information will be treated in confidence and is only requested in order that PSW may offer advice on what facilities are available for learners with disabilities or special medical conditions.
- Much of the information of a personal nature, which is requested, on this form is required for administrative or statistical purposes. It should be noted that this information will be held and processed electronically and will be covered by the provisions of the Data Protection Act.
- Should you require accomodation whilst attending this course please contact the Office Manager who can arrange this for you should you require.
